

NEW LOOK Special

Line and Age Spot Removal

Before

After

At Women's Health Associates, we offer several extremely safe and non-invasive laser therapy treatments for line and age spot removal, hair and tattoo removal by trained staff.

Laser therapy at WHA is physician-supervised, safe and effective. Using a variety of state-of-the-art lasers, we treat a number of skin conditions. Laser treatments are a cost effective and non-invasive alternative to plastic surgery for the elimination of fine line and the reduction of facial wrinkles.

Hair Removal

Before

After

Laser hair removal is superior for keeping unwanted hair from your face or other parts of your body such as under arms, bikini line, legs and back. Laser treatment, an alternative to electrolysis, will permanently reduce hair growth anywhere, leaving your skin looking and feeling smoother and silkier.

Tattoo Removal

Before

After

Tattoos are permanent, though sometimes we wish there were not! With laser treatments, most tattoos can be permanently erased...call us today!

Valid only for first-time customers.

Buy two sessions, 3rd session 1/2 off
